

first list we need to indicate our seriousness about replacing that home in Norfolk. Many of you are aware of it, have probably toured it. You need to look at that very carefully, even if we get this to moving now we will be several years away before construction is done. This contrasts what the Governor did, who had it in as a second year, I don't know how to call it, a cash...a form of a cash situation. We decided that it was important to move ahead and that does add five point...nearly 5.8 million to the first year in that. It's a set aside of the money. It will not be spent for a couple, three years probably. The rest of it goes down, many of it's renovations and remodeling, very necessary things, upgrades. The one I would call your attention to also is in the bottom of the LB 309 Task Force, there is \$7 million each year for LB 309, which is more money than we have put in historically in an attempt to meet our obligations in repair and maintenance category, a total of over 15 million. That is included in this. The engineering link at UNL is included in this, if you'll notice. Engineering plant, a research plant at UNO for the engineering college is in at 225 and 275, pending review by the second...postsecondary commission, and on and on. I'll let you read it. If there's questions, be happy to try to answer them.

SENATOR CROSBY: Thank you, Senator Wehrbein. Mr. Clerk, do you have an amendment?

CLERK: Madam President, Senator Beutler would move to amend the committee amendments. (Beutler amendment, AM1896, appears on page 1954 of the Legislative Journal.)

SENATOR CROSBY: Senator Beutler, to open on your amendment.

SENATOR BEUTLER: Mr. Clerk, which amendment is this? Could you read it, please.

CLERK: It's AM1896. I believe it increases the appropriation from 50,000 to \$100,000; 1896.

SENATOR BEUTLER: Mr. Clerk, members of the Legislature, this is a very, very unusual situation, it is not a...simply a typical request to increase the funding on the appropriations...that the Appropriations Committee has given to a particular appropriation because what I'm asking for is the restoration of the original amount that was appropriated for the Trail Development Fund, way back in 1991, when we created it. There will be passed out to
